STUDENT WORKSHEET

Name: _____ Class: _____

How did Apollo 13 get back to Earth?

Listen to the whole episode. Then answer in your own words.

1 **Why did the oxygen leak threaten more than breathing?**

2 **How did the lunar module Aquarius help save the crew?**

3 **How were the wrong-shaped carbon dioxide filters made to work?**

4 **Design an adapter on paper**

Draw a square filter and a round hose. Use arrows to guide air through the filter into the hose. Mark which joints must be sealed.
