STUDENT WORKSHEET

Name: _____ Class: _____

# How do animals survive winter?

Listen to the whole episode. Then answer in your own words.

**1** **Where do the squirrel and the bear store their winter food?**

**2** **How does snow help a vole stay warm?**

**3** **Why does the seal need a breathing hole, but the perch does not?**

**4** **Draw the snow's secret**

Draw a winter scene that also shows beneath the snow. Put a fox above the snow and a vole in its tunnel. Add two short explanations: how the snow helps the vole and how the fox finds its prey.
